

Case Study

"Not all stains are created equal"

Type of Mark/ Stain?	Age of stain?	Material type?	Application details.	Conclusions.
Mixed	Mixed	Mixed	Does fading occur?	No Bleach, No Fading.

Additional comments: The **MX14** solution is water based so will not bleach or fade colour fast fabrics or leather. All you need to do is follow the **APPLY**, **LEAVE** and **WASH** process. Always allow adequate time when applying for the **MX14** to do its thing. If its fading its working, repeat steps as required.

If you are not seeing the results you expect please contact us at sales@mx14.co.uk and you may be eligible for our "Send and Return" service. We are here to help and happy to do so.
